

Room Physics 331: Circuit Numbers and Phases

xfig note: scale 1:42

Left column of panel has odd numbers: phase is determined by counting A,B,C,A,B,C... down the column. Right is even: phase is determined by counting A,B,C,A,B,C,... down the column.

 **30A 120V Outlet**
 **15/20Amp 120V Quad Outlet**

31 30 26 28 27 27
A C A B B B

**Wiring color convention:
for 3-phase:**

A Black
B Red
C Blue
White Ntrl
Green Grnd
