

Bruce Allen
Publication List - 2000

1. B. Allen, Phase transitions in de Sitter space, Nucl. Phys. **B226** (1983) 228-252.
2. B. Allen, Effective potential in de Sitter space, in *The Very Early Universe*, eds. Hawking and Siklos, Cambridge University Press, 1983, 329-335.
3. B. Allen and S. Davis, Vacuum energy in gauged extended supergravity, Phys. Lett. **124B** (1983) 353-356.
4. B. Allen, Euclidean Schwarzschild negative mode, Phys. Rev. **D30** (1984) 1153-1157.
5. B. Allen, The SU(5) potential in de Sitter space, Ann. Phys. **161** (1985) 152-177.
6. B. Allen, Vacuum states in de Sitter space, Phys. Rev. **D32** (1985) 3136-3149.
7. B. Allen and T. Jacobson, Vector two-point functions in maximally symmetric spaces, Commun. Math. Phys. **103** (1986) 669-692.
8. B. Allen, Does statistical mechanics equal one-loop quantum field theory?, Phys. Rev. **D33** (1986) 3640-3644.
9. B. Allen and C.A. Lutken, Spinor two-point functions in maximally symmetric spaces, Commun. Math. Phys. **106** (1986) 201-210.
10. B. Allen, Graviton propagator in de Sitter space, Phys. Rev. **D34** (1986) 3670-3675.
11. B. Allen, Gravitons in de Sitter space, in *Field Theory, Quantum Gravity, and Strings II*, eds. Sanchez and Vega, Springer Verlag Lecture Notes in Physics 280, 1987, 82-89.
12. B. Allen, Graviton propagator in homogeneous and isotropic space-times, Nucl. Phys. **B287** (1987) 743-756.
13. B. Allen, A. Folacci and G.W. Gibbons, Anti-de Sitter space at finite temperature, Phys. Lett. **189B** (1987) 304-310.
14. B. Allen and M. Turyan, An evaluation of the graviton propagator in de Sitter space, Nucl. Phys. **B292** (1987) 813-852.
15. B. Allen and A. Folacci, The massless minimally coupled scalar field in de Sitter space, Phys. Rev. **D35** (1987) 3771-3778.
16. B. Allen, The stochastic gravity-wave background in inflationary universe models, Phys. Rev. **D37** (1988) 2078-2085.
17. B. Allen, C. Pathinayake and A. Vilenkin, Massless scalar and antisymmetric tensor fields in de Sitter space, Phys. Rev. **D37** (1988) 2872-2877.

18. B. Allen, A. Folacci and A.C. Ottewill, Renormalized graviton stress-energy tensor in curved vacuum space-times, *Phys. Rev.* **D38** (1988) 1069-1082.
19. B. Allen, Gravitational lenses as long-baseline gravity-wave detectors, *Phys. Rev. Lett.* **63** (1989) 2017-2020.
20. B. Allen and E.P.S. Shellard, Cosmic string evolution - a numerical simulation, *Phys. Rev. Lett.* **64** (1990) 119-123.
21. B. Allen and E.P.S. Shellard, On the evolution of cosmic strings, in *Symposium on the formation and evolution of cosmic strings*, ed. Gibbons, Hawking, and Vachaspati, (Cambridge University Press: Cambridge, 1989) 421-448.
22. B. Allen and R.R. Caldwell, Generation of structure on a cosmic-string network, *Phys. Rev. Lett.* **65** (1990) 1705-1708.
23. B. Allen and A.C. Ottewill, Effects of curvature couplings for quantum fields on cosmic-string space-times, *Phys. Rev.* **D42** (1990) 2669-2677.
24. B. Allen, Reversing centrifugal forces, *Nature* **347** (1990) 615-616.
25. B. Allen, Using gravitational lenses to detect gravitational waves, *General Rel. and Grav.* **22** (1990) 1447-1455.
26. B. Allen and R.R. Caldwell, Kinky structure on strings, *Phys. Rev.* **D43** (1991) 2457-2460.
27. B. Allen and R.R. Caldwell, Kinky strings: evolution of kinks as small-scale structure on a cosmic string network, in *Proceedings of the Banff Summer School on Gravitation 1990*, ed. R. Mann, (World Scientific, New York, 1991) 65-77.
28. B. Allen and R.R. Caldwell, Formation of kinks, in *Nonlinear problems in relativity and cosmology*, ed. Buchler, Detweiler and Ipser, *Ann. New York Acad. Sci.*, **631** (1991) 76-87.
29. B. Allen and R.R. Caldwell, Small scale structure on a cosmic-string network, *Phys. Rev.* **D43** (1991) 3173-3187.
30. B. Allen and E.P.S. Shellard, Gravitational radiation from cosmic strings, *Phys. Rev.* **D45** (1992) 1898-1912.
31. R.R. Caldwell and B. Allen, Cosmological constraints on cosmic string gravitational radiation, *Phys. Rev.* **D45** (1992) 3447-3468.
32. B. Allen and J.Z. Simon, Time travel on a string, *Nature* **357** (1992) 19-21
33. B. Allen, J.G. McLaughlin, and A.C. Ottewill, Photon and graviton Green's functions on cosmic string spacetimes, *Phys. Rev.* **D45** (1992) 4486-4503.
34. B. Allen, J.G. McLaughlin, and A.C. Ottewill, Examples of the Vilkovisky-DeWitt effective action in one-loop quantum gravity, *Phys. Rev.* **D45** (1992) 4504-4513.

35. B. Allen, J.G. McLaughlin and A.C. Ottewill, An example of the Vilkovisky-De Witt effective action in one-loop quantum gravity, in *Proceedings of the Sixth Marcel Grossmann Meeting on General Relativity*, ed. T. Nakamura, World Scientific, (1991).
36. B. Allen and A.C. Ottewill, Gauge independence in Hadamard renormalization, *Phys. Rev.* **D46** (1992) 861-864.
37. B. Allen, Are cosmic strings consistent with COBE data?, in *Quantum Physics and the Universe*, ed. M. Namiki, Y. Aizawa, K. Maeda, and I. Ohba, Pergamon Press Vistas in Astronomy **37** (1993) 433-438.
38. B. Allen and P. Casper, Closed-form expression for the gravitational radiation rate from cosmic strings, *Phys. Rev.* **D50** (1994) 2496-2518.
39. B. Allen, P. Casper, and A.C. Ottewill, Analytic results for the gravitational radiation from a class of cosmic string loops, *Phys. Rev.* **D50** (1994) 3703-3712.
40. B. Allen and S. Koranda, CBR anisotropy from primordial gravitational waves in inflationary cosmologies, *Phys. Rev.* **D50** (1994) 3713-3737.
41. B. Allen and Scott Koranda, CMBR anisotropy due to gravitational radiation in inflationary cosmologies, in *CMB Anisotropy Two Years After COBE: Observation, Theory, and the Future*, ed. Lawrence Krauss, (World Scientific, Singapore, 1994).
42. Bruce Allen, Robert Caldwell, and Scott Koranda, CBR temperature fluctuations induced by gravitational waves in a spatially-closed inflationary universe, *Phys. Rev.* **D51** (1995) 1553-1562.
