Room Physics 331: Circuit Numbers and Phases

- 30A 120V Outlet
- 15/20Amp 120V Quad Outlet

- Wiring color convention:
  - A Black
  - B Red
  - C Blue
  - White Ntrl
  - Green Grnd

Left column of panel has odd numbers: phase is determined by counting A,B,C,A,B,C,... down the column. Right is even: phase is determined by counting A,B,C,A,B,C,... down the column.
